

# Pendleton County Trail Quest

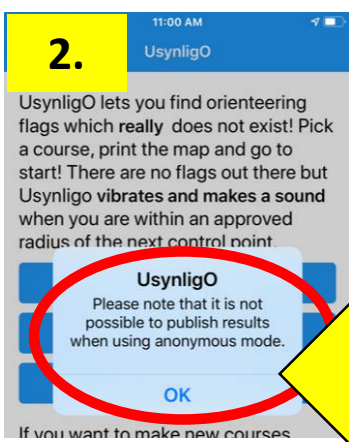

## Instructions

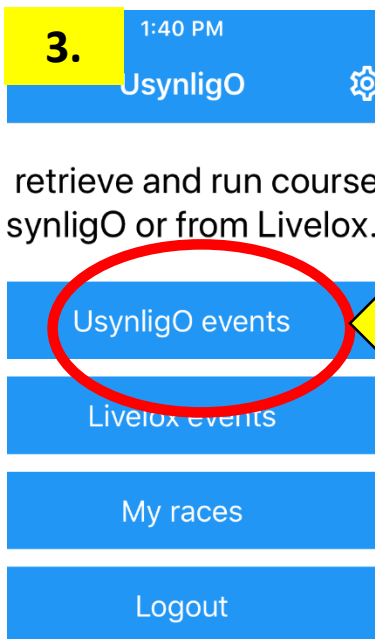

1. UsynligO App Icon

During these uncertain times when so many events are being canceled, getting outdoors is a great alternative. With this in mind, Pendleton County is offering a fun, healthy activity entitled "Pendleton County Trail Quest". We have some great walking trails in the county and Trail Quest gives you extra incentive to get out and enjoy some sun and scenery. The Pendleton County Trail Quest challenges you to find invisible waypoints along the trail using your phone and a free app called UsynligO. Just download and install the app, hit the trail, and as you find each of the waypoints, your phone will alert you. This will be a great way to enjoy the trail, have a little adventure along the way and maybe win a prize.

1. Download and install the "**UsynligO**" app on your smart phone. UsynligO means invisible in Norwegian. UsynligO depends on GPS, so after it installs, go to "Settings" and select "**ALWAYS**" for UsynligO. The app **MUST** have access to your location while on the trail. After you're finished, simply set the access back to "**NEVER**" in your phone settings. On Android, please make sure you have "Google location accuracy" enabled on your phone.

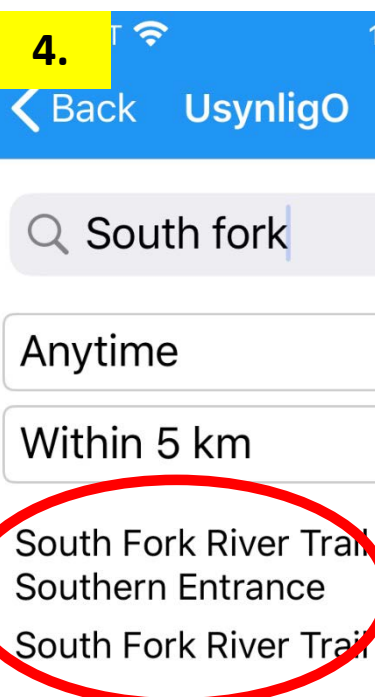

2. Go to UsynligO and log in with "**Anonymous login**". Just click OK when it tells you it will be unable to publish results. We don't care about that!;) )

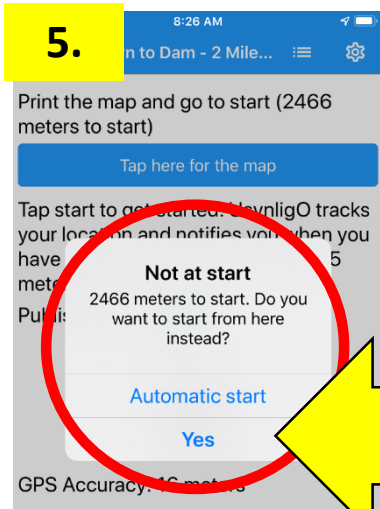

3. Go to **UsynligO events**.

retrieve and run course synligO or from Livelox.

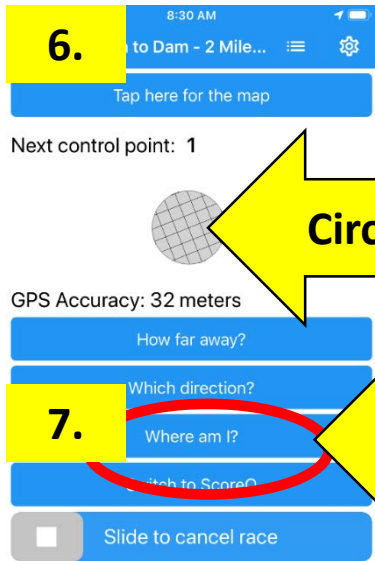

4. Look for "**South Fork River Trail**" or any trail you are looking for and tap that trail. You can use the SEARCH as well if you know what trail you are looking for. We have the South Fork River Trail divided into six separate Trail Quest sections. You can enter from the Southern Elementary side, go in a northerly direction and select the trail lengths of ½ mile, 1 mile or 2 miles. Or you can enter from the Dam side of the trail, go in a southerly direction and select trail lengths of ½ mile, 1 mile, or 2 miles.

- There are no physical markers along the trail...your phone will let you know when you have reached a marker. The app will also tell you how far away you are from the trail. It's best to go to the trail and then hit Start, but you can actually click Start wherever you are if you wish.

Once you click YES to start, you'll hear a BEEP BEEP BEEP sound. This lets you know you are ready to begin! 😊

- The first thing you will see is a gray circle with a grid and your GPS accuracy. When you complete the trail, the gray area will turn into a letter of the alphabet.

Circle will reveal a letter when trail is complete

Click "Where am I?"

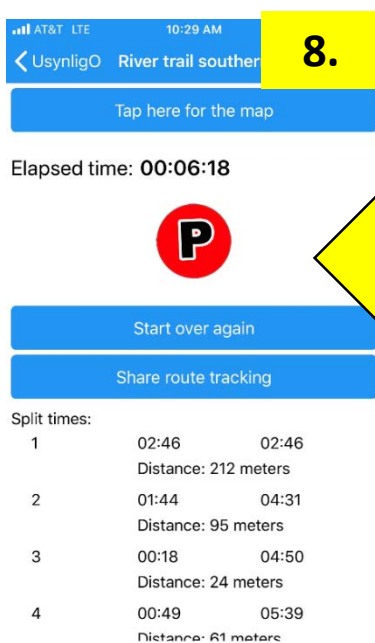

- Click "Where am I?".

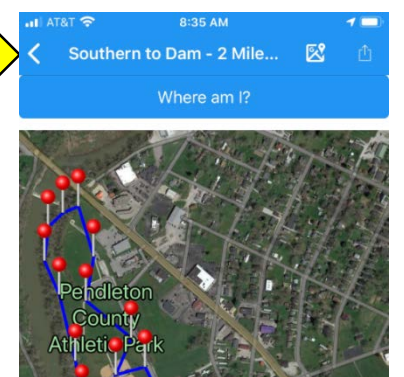

- You can tap each pin to see what number along the trail it represents. There is a START pin, marker or waypoint pins, and finally a FINISH pin. When you get close to a pin your phone will make a sound...this means you just found the marker and checked in at that waypoint! Continue "checking in" until you get back to the FINISH.

WATCH YOUR STEP on the trail!;) Be safe...Just occasionally look at your phone to see where you are in reference to the pins.

We tried to make the check points at Areas of Interest. Look around and see why we picked that spot for a check point! Maybe it's a bridge, or a certain type of tree with a sign or just a pretty area. Enjoy the view and the experience!

BACK arrow

- Continue until you reach the FINISH pin.. your phone will make a happy music sound! Click BACK arrow (should be the upper left hand corner) to see the gray grid area has now filled in with a letter.

Text the letter that appears in the gray area and your name to 859-545-0905 OR private message at [facebook.com/pendletoncounty](https://www.facebook.com/pendletoncounty) to be entered into a drawing that will take place on Saturday, August 1<sup>st</sup>.

There are various Trail Quest courses on the South Fork River Trail. The more miles you walk, the more chances you have to win! See the app for exactly where the trails begin. **You'll get one chance at the drawing for each half-mile trail** you complete. In other words, the longer the trail you walk, the more chances you have to win.

Call or text (859) 545-0905 with questions or for support! View the video of these instructions here:
